

## Create a new file

(here the user is akshat and not ansible) replace Akshat with ansible

vi createfilecode.yml

```
--  
hosts: demo  
user: akshat  
become: yes  
connection: ssh  
tasks:  
  - name: Create a file  
    file:  
      path: /home/akshat/createfile.txt  
      state: touch  
..
```
